## INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents Washington, D.C. 20231

Dear Sir:

Applicant directs the Examiner's attention to the following patents and/or other documents which may be material to the examination of this application. The Examiner is urged to consider these documents and make them of record in this application. This submission is not intended to constitute an admission of any kind, and in particular is not an admission that any patent, or other document referred to herein constitutes a printed publication or is otherwise properly citable as prior art with respect to this application. No representation is made that a search has been conducted or that no more material information than that cited herein exists. Accordingly, this submission is not intended to take the place of the Examiner's own independent search of the art.

Copies of the documents cited are not provided, as they were previously provided in the parent application, USSN 08/880,499 filed June 23, 1997.

CERTIFICATE OF MAILING (37 C.F.R. § 1.8(a))

I hereby certify that this Amendment is being deposited with the United States Postal Service on the date shown below with sufficient postage as first class mail in an envelope addressed to the Assistant Commissioner for Patents, Washington, D.C.

Since this Information Disclosure Statement is being filed in compliance with 37 C.F.R.§1.97(b) no fee is required in connection with its filing. Should any fee be due for this filing the Office is authorized to charge deposit account number 16-1852.

Applicants respectfully request that the listed documents be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO-1449 be returned in accordance with M.P.E.P.§609.

Respectfully submitted,

Patricia A. Sweeney

## INFORMATION DISCLOSURE STATEMENT

Dear Sir:

Applicant directs the Examiner's attention to the following document which may be material to the examination of this application. The Examiner is urged to consider these document and make it of record in this application, a cop of which is enclosed. This document is the PCT publication of the PCT application of Applicant's prior filing, the US patent already cited in this examination, US patent no. 6,037,523. This was cited in the PCT search report, a copy of which is attached.

This submission is not intended to constitute an admission of any kind, and in particular is not an admission that any patent, or other document referred to herein constitutes a printed publication or is otherwise properly citable as prior art with respect to this application. No representation is made that a search has been conducted or that no more material information than that cited herein exists. Accordingly, this submission is not intended to take the place of the Examiner's own independent search of the art.

A copy of this document, is attached.

The document was cited in a communication from a foreign patent office in a counterpart foreign application not moe than three months before the filing of this information disclosure sstatement. Thus it is believed that no fee is due.

Applicants respectfully request that the listed documents be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO-1449 be returned in accordance with M.P.E.P.§609.

Respectfully submitted,

Patricia A. Sweeney
